- ▶ **Software Testing:** Ensure quality and reliability.
- ▶ **Server Maintenance:** Keeping your digital infrastructure running smoothly.

About Our Team

At 8Queens, our team comprises seasoned professionals with over 10 years of industry experience. We excel in diverse verticals, including Healthcare, Manufacturing, Hospitality, Tourism, Retail, Finance, and Education.

Projects

1. Kalaingar Magalir Urimai Thogai

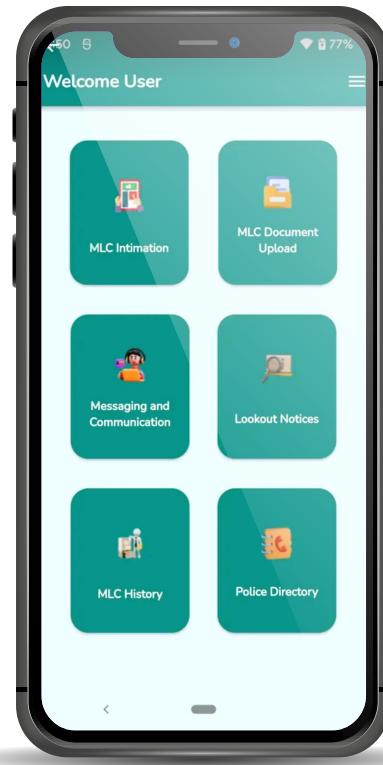

As part of the women's rights grant scheme in Tamil Nadu, 8Queens Software Technologies played a pivotal role in the development of the Kalaingar Magalir Urimai Thogai initiative. Scheduled to be rolled out on September 15, this scheme, one of the seven assurances by Chief Minister M.K. Stalin, aims to empower women across the state.

Key Features

- ▶ Empower women through various grants and support mechanisms.
- ▶ Addresses key issues related to women's rights, economic empowerment, and social well-being.

Impact

This initiative stands as a testament to 8Queens' commitment to leveraging technology for social welfare, contributing to the betterment of women's lives in Tamil Nadu.

Projects

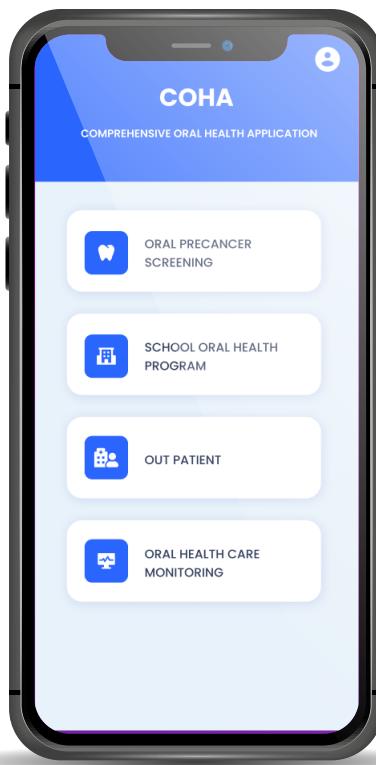

2. Medical Legal Case Intimation System

The Medico-Legal Case Intimation System is a groundbreaking mobile application designed and developed by 8Queens Software Technologies. Released on 09-05-2023 by the Honourable State Minister of Information Technology, T Mano Thangaraj, this application streamlines communication between registered hospitals and police stations in Kanyakumari District.

- ▶ Efficient handling of medico-legal cases such as road accidents or attacks.
- ▶ Reduces the need for immediate police intervention during a medical emergency, ensuring timely treatment.
- ▶ Bridges the communication gap between police stations and hospitals in handling medical cases.

Significance

This application has proven to be instrumental in enhancing the coordination and response efficiency in dealing with medical-legal cases, contributing to improved public safety.

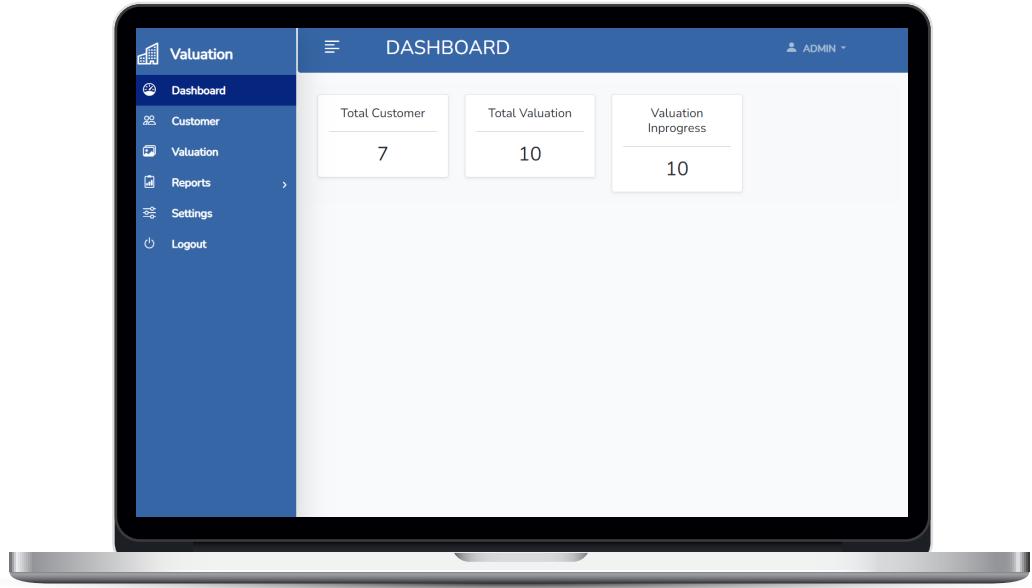

Projects

3. COHA- Comprehensive Oral Health Application

The National Health Mission – Tamil Nadu and Tamil Nadu e-Governance Agency jointly developed this Android Mobile Application to be used by Dental Surgeons, Dental assistants and field-level Dental health officers in Tamil Nadu. This Android mobile application is proposed to be used to enter and store information related to patient screening and assessments related to the National Oral Health programs that are implemented in Tamil Nadu at various stages and levels.

Modules

- ▶ **Oral Pre-Cancer Module:** The module to screen patients for the Oral Pre Cancer diagnosis and treatment.
- ▶ **School Oral health Program Module:** The module to screen school students to assess their Oral hygiene.
- ▶ **Asset Management Module:** The module is to record the assets available for these Oral health programs.
- ▶ **Outpatient Module:** The module is to screen and enter the details of the Outpatients

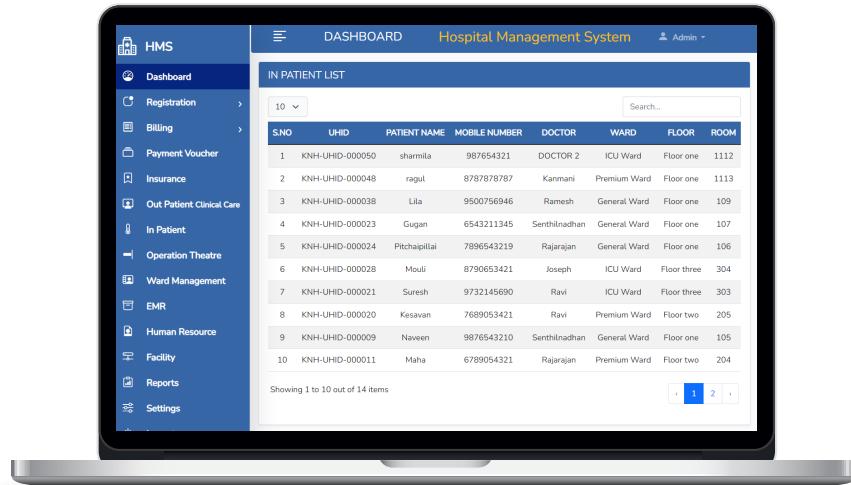

Projects

4. Property Valuation

As the real estate industry continues to evolve, the importance of accurate and efficient property valuation cannot be overstated. I am pleased to introduce our Property Management Software, a solution meticulously designed to streamline this critical aspect of your business.

Features and benefits

- ▶ **Accurate Valuations:** Our software employs advanced algorithms and real-time data to deliver highly accurate property valuations, empowering you to make well-informed decisions.
- ▶ **User-Friendly Interface:** We have prioritized an intuitive, user-friendly interface to ensure accessibility for professionals at all levels.
- ▶ **Customization:** The software is adaptable to your specific needs, allowing for adjustments in valuation models and the generation of custom reports.
- ▶ **Efficiency:** Experience time and resource savings through faster property valuations, enabling you to focus on strategic decisions and growth.

Products
